

How to make my Snowman

By Lauren 9a

#1. My snowman starts by filling the back round with the color number #000000 its black.

#2. Now you make 3 round balls (stacked vertically) with the circle shape on the tools bar. They are white out line size it white to. All of the balls on the snowman are the same color. Make sure the bottom one is about 3in from the left side of the page. The bottom one is about 1 ¼in vertical and 1 ½ in wide.

#3.The the middle one is about 2 ½in vertical and 2 ½in wide.

#4.The head of the snowman is 2in vertical and 1 ¼in wide. Make sure that the bottom one is touching the bottom of the page.

#3. Now make the arms come out of the middle ball of your snowman standing up in about a 90 degree angle. They are the color 663333 it is a brown on both of the snowman. The left arm is 1 ¼in long. Make sure the line size is on 12. It is 10/16 away from the beginning of the middle snowman on the bottom. Hand draw it.

4. Now make the other arm 1 ¼in long on line size 12. Make sure you hand draw it. It is about 9/16 away from the beginning of the middle snowman ball.

5. Now make the hat with the square tool in the tools. Make it 1in long and 1 ½cm long. Then make the trim on the hat ¼in long on both sides. Then in the shape tools take the shape in the middle row very bottom and put it on the hat in the bottom left corner.

6. Now make the eyes 2/16in long and wide on the head. There is 2 eyes. They are the color #000000.

7. Now make the mouth on the face ¼in away from the part of the top ball sitting on top of the middle ball. They are the color black. The circles are on line size 6. Make 5 of them.

8. My nose is made out of the triangle shape on the shape box make it the color ff9900. Make it ¾in away from the bottom of the top all.

9. Now make my scarf in between the middle and the top ball. Make it color 33ffcc. Make it on line size 16 and 1 ½in long. With ff3366 that is a color that you will use to make stripes down the scarf. Make 11 of them.

10. The last step is to make the buttons with the color #000000. Make the first one closest to the bottom of the snowman ball 4/16in size the next one 3/16in the last one is 2/16in. That is how you make my snow man.
